SUSTAINABILITY

At Prodalin we understand the gravity of responsibility we have towards our planet and for the people who work hard in our industry. Therefore, Prodalin thrives to set an example through its own practices in Sustainability and Social Responsibility.

Here at Prodalin we stand for the values of equality, tolerance and non-discrimination. To make sure that these values are communicated on different forums and platforms, Prodalin joined the following initiatives:

Sedex, BSCI, Rainforest Alliance, FairTrade, EcoVadis

ORGANIC & CONVENTIONAL FRUITS

We at Prodalim are one of the leading companies in the world for processing various types of fruits and products: Juices, concentrates, essential oils and aromas. In our portfolio you will be able to find:

Concentrates, NFC, Pulp cells, Puree, Oil and Byproducts, Organic fruits

Orange, Pineapple, Grapefruit, Banana, Apple, Pear, Passionfruit, Peach, Apricot, Lemon, Lime, Mandarin and more...

BLENDING

With four blending facilities spread worldwide, we can manufacture and deliver, all year long, a stable top quality product with just on time delivery, our solution drastically reducing our Customers' complexities, quality assurance, storage, and working capital needs.

Multifruit Blends, Citrus Blends, Tropical Blends, Blends with additional ingredients

COMPOUNDS

Our brand new compound factory and R&D facility in Rotterdam is a center of innovation and excellence.

We develop and produce compounds and products that meet our Customers' unique taste and special needs.

GLOBAL SOURCING

With more than 30 years of experience and knowledge, we created a vast network of Suppliers and Partners worldwide with the ability to source a huge variety of fruits from different origins.

By doing that we eliminate the dependency of our Customers in any specific source, and create for them a "risk free" business model.

Prodalim strives to become the first choice global Supplier and solution provider of juices and juice-based compounds.
