

Sustainability Policy:

At Prodalim, we understand that sustainability is a shared mission. Our sustainability strategy and policy are designed to align with global environmental commitments and regulations, while maintaining the highest standards of quality and efficiency. Our main focuses are:

Reducing Carbon Footprint:

Prodalim is actively working to reduce GHG emissions, transition to 100% renewable energy across all sites, and minimize water consumption and waste.

Driving a Responsible Supply Chain:

We collaborate closely with our partners and suppliers to promote environmentally friendly production processes, ensuring that our entire value chain adheres to sustainability best practices.

Advancing the Circular Economy:

At Prodalim, we integrate circular economy principles into our product innovation and supply chain by maximizing resource efficiency and minimizing waste.

Innovation for a Greener Tomorrow:

Through cutting-edge technology and investment in sustainable projects, Prodalim continuously develops solutions that help reduce environmental footprint and enhance sustainability performance.

Prodalim 4 Pillars Sustainability Strategy are: Environment; Social; Governance & Innovation

Prodalim is aiming to achieve its sustainability goals and targets by 2030, in the following topics:

Our Sustainability Goals & Targets

Prodalim is committed to promoting sustainability among all its stakeholders. Internally, we achieve this through training sessions and annual activities. Externally, we extend our efforts throughout the entire supply chain
