

Sustainability Policy:

We are committed to using resources responsibly, avoiding their exhaustion so that those resources can be preserved to meet the needs of future generations. Our promotion of sustainable development includes the rational use of natural resources, and the commitment by each and every one of our employees to take the necessary steps to use those resources efficiently and responsibly while promoting their conservation and preservation.

Prodalim also encourages its partners and suppliers to share the same commitment and respect for the environment and the needs of local communities in its Code of Conduct.

Prodalim deals with healthy products and supports a healthier way of living by using natural ingredients, promoting sugar reduction initiatives, and developing technologies to reduce Alcohol.

Prodalim 4 Pillars Sustainability Strategy are: Environment; Social; Governance & Innovation

Prodalim is aiming to achieve its sustainability goals and targets until 2030, in the following topics:

Prodalim promotes sustainability with its entire stakeholders, both internally within our company through trainings and yearly activities, as well as externally throughout the supply chain.
